

PURE BUTTER GHEE

A result of excellent fresh cream and butter

For decades, consumers and producers around the world have been placing their trust in the consistent quality of Royal VIV Buisman's pure butter ghee. Its quality is a result of the excellent fresh cream and butter that we use as raw material. In course of time, our former company logo has therefore even developed into the symbol of quality.

A photograph showing a stainless steel industrial machine dispensing a thick stream of golden ghee into a metal tray. In the background, several green metal cans are visible on a conveyor belt.

Royal VIV Buisman produces pure butter ghee under the brand names "Gold medal", "Cow brand" and "Green meadow". For decades these brands are widely and highly appreciated, particularly in the Middle East. Pure butter ghee is available in smaller cans for the consumer market, as well as larger cans for bakeries or catering companies.

BENEFITS OF PURE BUTTER GHEE

- ✓ Natural and versatile ingredient
- ✓ Delicious flavour and taste
- ✓ Extended microbiological shelf life compared to butter
- ✓ Salt-free, lactose-free alternative to hydrogenated cooking oils
- ✓ Great source of natural vitamins A, D and E

About Royal VIV Buisman B.V.

Royal VIV Buisman is specialised in a great variety of milk fat products and a family-owned business. Founded in 1868 Royal VIV Buisman has a great history and a lot of experience in trading and producing milk fat products. In 1968 the "Royal" denomination was a fact. In the Netherlands it is only possible to get this denomination when the company has an outstanding reputation, is very important for the sector as well as the country and is at least 100 years old. Today, a wide range of special products is used all over the world and Royal VIV Buisman is proud to create more better butter moments with her partners.
